This is the UBC Mail-Relay System (mx1.mail-relay.ubc.ca).

Your message could not be delivered to one or more recipients. This error may have occurred because:

- The recipient's email address does not exist
- The destination mail service is not available

Before attempting to resend this message, please verify that the recipient's email address has been entered correctly.

If you require further assistance, please contact the IT Service Centre Help Desk:
